Aspiring Software Engineer | UI/UX Enthusiast | Problem-Solver

A forward-thinking engineering graduate (Class of 2025) with a deep passion for **software development, UI/UX design, and innovative problem-solving**. I thrive on creating user-centric digital experiences and building functional, visually compelling applications. My strength lies in translating complex ideas into seamless, intuitive interfaces while continuously learning and adapting to new technologies.

Projects & Technical Experience

Assessment Platform - Frontend (UI/UX & Development)

- Designed an intuitive, user-friendly interface for an assessment platform using Figma, focusing on accessibility and seamless navigation.
- Developed a fully functional frontend using HTML, CSS, and JavaScript, ensuring a responsive and engaging user experience.

Hostel Management System (Full-Stack Development)

- Developed a comprehensive hostel management system to streamline room allocation, student records, and payment tracking.
- Built the frontend using HTML, CSS, JavaScript, and backend using Java & MySQL, integrating real-world database management principles.

Technical Skills

- Programming:** Java, JavaScript, HTML, CSS
- UI/UX Design:** Figma, Responsive Web Design
- Database Management:** MySQL
- Soft Skills:** Public Speaking, Leadership, Team Collaboration

Certifications & Training

- Core Java Training** – Completed an intensive 15-day training at Vanakkam HRD, mastering OOP concepts, exception handling, and file management.
- Responsive Web Design Certification** – Earned from FreeCodeCamp, showcasing expertise in designing adaptable web experiences.

Education

Peri Institute of Technology (2021 – 2025)

- B.E Computer Science - 80%

Amala Girls Higher Secondary School (2021)

- Bio-Maths - 89%

Leadership & Extracurricular Activities

- NSS Girls Squad Coordinator** – Led and organized social initiatives, engaging over 100+ students in community projects.
- Event Emcee & Host** – Recognized for public speaking skills, frequently hosting college events and panel discussions.
- College Sports Enthusiast** – Actively participates in various college sports, fostering teamwork and resilience.

Why I Stand Out

- **Bridging Creativity & Functionality** – I don't just build applications; I create impactful digital experiences that blend design with performance.
- **Self-Starter with a Growth Mindset** – I actively seek challenges, upskill myself, and push boundaries in software development & UI/UX design.
- **A Natural Leader & Communicator** – From leading NSS squads to hosting events, I bring energy, coordination, and team spirit to every environment.
